2010/3

Assisted shooters' spring and stand

Over the last 6 months WCSA has been developing a new and improved standard Assisted shooters' spring and stand. The original specification is vague and the springs being used were too stiff. Following considerable research, the WCSA Technical Committee has now approved a new design. This incorporates a safety device which limits the amount of movement of the platform so that the bow does not fall off the stand.

Each unit is serially numbered and the spring has a blaze of green paint. The springs are pinned in such a way that they cannot easily be removed. The Technical Committee maintains a register of all shooters' stands issued and only approved stands can be used in future competition– from 1 January 2011.

The unit incorporated a plastic-covered round bar upon which the crossbow rests.

The units are available only from licensed WCSA manufacturers. At this stage there is only one licensed manufacturer:

Ausbow Industries
33 Cadell Street
Goolwa South Australia 5214
e-mail: sales@ausbow.com.au
www.ausbow.com.au

The approximate export price of the unit is \$ AUD 69.00 plus postage.

Metal lapel badges

WCSA has a quantity of enameled metal lapel pins on order featuring the new logo. They will be available for sale at \$ AUD 6.00 each.

Cloth badges/patches

WCSA has a quantity of cloth badges/patches on order featuring the new logo. They will be available for sales at \$ AUD 5.00 each.
